Office Action Summary

Art Unit: 3672

DETAILED ACTION

1. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The declarations of each inventor states that the error relied upon was that "none of the claims in the '422 Patent are directed to a rock bit comprising a cutting cone having a number of teeth which include a hardfacing comprising steel and filler which comprises 10 to 100 percent by weight spherical cast tungsten carbide particles having a particle size less than 40 mesh." This declared omission error is not considered by the examiner to be an error in that claims 1-11 and claim 17 all provide for a rock bit cone having such features. For further information, see MPEP 1414(II).

2. Claims 1-38 are accordingly rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Roger Schoepfel whose telephone number is (703) 308-2147. The examiner can normally be reached on Monday through Thursday from 6:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell, can be reached on (703) 308-2151. The fax phone number for this Art Unit is (703) 305-3597.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1113.
